

SECRET**Office Memorandum • UNITED STATES GOVERNMENT**

TO : Chief, Intelligence School

DATE: 24 December 1957

FROM : Chief, Orientation Faculty

SUBJECT: Weekly Activities Report #51, 18 - 24 December 1957

1. Summary:

This week the Orientation Faculty attended five additional briefings on IAC subcommittees, established a schedule for a review of training films to bring I.O. film exhibits up to date, and begin a series of staff conferences on instructor guides, training aids and plans for future I.O. courses.

2. Significant Items:

25X1

Representatives from the following IAC subcommittees briefed the I.O. faculty during the past week:

Interagency Defectors' Committee
 Interagency Priorities Committee
 Economic Intelligence Committee
 Foreign Language Publications Committee
 Watch Committee

The list of these briefings is now complete except for one on International Communism and Resistance Intelligence which will be given in January.

These briefings, while giving the I.O. faculty more details than could actually be used in class work, served to supply background and documentary material from which the faculty could talk authoritatively; more important they made the faculty conversant with current problems of the Intelligence Community, a knowledge necessary to effectual teaching. We are considering a schedule of full scale briefings to include the Operations Coordinating Board which is assuming an increasing emphasis by guest speakers on the Intelligence Community.

3. Other Activities:

25X1

A. Intelligence Orientation

1. The lecture schedule for I.O. #17 beginning 6 January is now completed. The schedule closely approximates the logical development of the course as we have planned it, pending the convenience of visiting lecturers.

~~SECRET~~

25X1

2. The schedule for film review begins next Monday with several films on Africa, one of which will be selected to supplement the lecture on that area, and a film Soviet Resistance Activities to be shown after Dr. [redacted] lecture on Resistance Activities.
3. An interesting problem under discussion by the faculty is the means whereby films could be made to have more impact on the students. In addition to briefings before the films we are considering briefings during the course of the film and/or a short post mortem.

25X1

B. Exhibits

25X1

1. [redacted] reports that exhibit revisions are on schedule. He expects to have the new Office of Operations and Office of Communications exhibits ready for the January course.

25X1

4. Personnel Notes:

a. [redacted] was on annual leave 21 December.

25X1

b. [redacted] are on leave for the Christmas week.
